MasterType's Figures + Formulas.™

From centimeters to light years, you can calculate, convert and compare! Figures + Formulas is a "computing encyclopedia" of weights and measures. It will broaden children's understanding of how and why measurement systems work as it teaches them to calculate anything — big and small numbers, the practical and the absurd — in an easy and entertaining way. And it includes a quiz mode to help with math studies.

Figures + Formulas is for adults, too. With it, you can convert currencies, adapt recipes and translate metric measures to American standards.

Go from square feet to acres or hogsheads to liters. This program does virtually everything you can use a calculator for, and more. Figures + Formulas is challenging and fun for kids…and a practical reference and working tool for the home.
